President's Remarks

2000年香港最重要的改革，莫過於教育改革。她勢將決定香港新一代成長的方向，影響著香港未來的競爭力和地位。

改革首先來自課程發展議會，建議將培育學生的優先次序，從過去的首要看重知識和技能，繼而是價值和態度；轉變為首要看重價值和態度，繼而是技能和知識。教育統籌委員會更明確地將教育改革目標定為：樂於學習、善於溝通、勇於承擔、敢於創新。這兩項改革的方向，正與本會為回應新世紀青年發展方向而提出的路向——視野、創新、博識、承擔不謀而合。而本會過去一年舉辦的活動，能廣獲社會人士及學校的支持，更印證了培育青年人的大趨勢。本人深信，隨著時間的推移，本會的信念將益顯光芒。

本人謹藉此機會代表董事會全人向各顧問、職員、各屬會義工、各界友好，在過去一年對香港新一代文化協會的支持和鼓勵，致以衷心的謝意。

The most important reform of Hong Kong in the millennium was undoubtedly the Education Reform. She undeniable affects the future competition power and role of Hong Kong as well as the growth and path of our new generation.

The Curriculum Development Council raised the Education Reform. It proposed that nurturing of students should be started from the development of ethics and attitudes then follows by knowledge and techniques. It is the reverse of the past direction which was started from knowledge and techniques, then follows by ethics and attitudes. Education Commission clearly point out that the mission of the Reform are: Happiness in Learning, Outstanding in Communication, Willingness in Taking Responsibilities and Bravery in Creativity. The directions of the Reform are exactly matched with our proposed nurturing direction for new generation: Vision, Creativity, Erudition and Responsibility. Last year, our activities are widely supported by the society and schools. The supporting can further prove the main nurturing direction of youth. I believe our beliefs will be bright in the future.

I on behalf of the Board of Directors express my deepest gratitude to our advisors, colleagues, volunteers from each sub-organization and those who care and support the Association.
