

感謝各位顧問的支持，更感謝全體全人的努力，使本會在過去的一年裡成功舉辦了「香港賽馬會全力贊助 - 第三屆全港青少年科技創新大賽」、「新一代發明創造及環保教育計劃」和「兩岸三地創意教育高峰論壇」。這標誌着香港新一代文化協會在實踐視野、創新和博識三方面均有所突破。

然而在過去的一年，香港正經歷著本身的經濟轉型和全球經濟衰退的衝擊。一股無奈及悲觀的情緒，不但瀰漫着整個社會，更困擾了不少青年學生。學童自殺個案有所上升。面對新的挑戰，本會在致力推動創意及博識活動時，將會更注重生命教育的滲透，力求培育出有積極人生觀、有承擔使命及有能力的新一代。

香港經歷了六十年代的社會動盪，取得了七十年代的經濟發展。香港人克服了八十年代的前途爭鬥，贏來了九十年代的高速發展。我深信今天同樣可以超越轉型的障礙，迎來更美好的明天。桂冠是獎給對自己有信心及努力不懈的人！願與青年朋友們共勉。

會長
梁中昀

In 2001, the Association successfully held the "Hong Kong Jockey Club Sole Sponsored - The 3rd Hong Kong Youth Science and Invention Contest", "Youth Invention and Environmental Education Program" and the "Creativity Education in Mainland, Taiwan and Hong Kong Symposium". From these brilliant results, they state that the Association stepped into a new stage in practicing vision, creativity and erudition. I would like to take this opportunity to say thanks to all of the advisors, and appreciate for the endeavor of all staffs.

Nevertheless, in 2001, Hong Kong is undergoing its change in economic system, and influencing by the global economic recession. A pessimism atmosphere is suffused in the society, and even impacted teenagers, thus leading to increase in student suicide. As a result, besides putting our effort on development of creativity and erudition for teenagers, we will also focus on expressing the concept of cherish our life and positive thinking, in order to cultivate a new generation that with an aggressive and positive philosophy of life.

Hong Kong endured the eventful 60's, and achieved the economic expansion in the 70's. We had overcome the perplexed prospect in the 80's, and accomplished a superior development in 90's. I do believe Hong Kong must be able to overcome the harsh environment that in front, and there will be a definite brilliant future for us.
